“I was offered far more than I could ever have expected. Not only were the carers looking after my Dad, but also my Mum and me. Without them this would have been an even more difficult experience. All I can really say is you are fabulous. Everyone I have had contact with has been so helpful and caring.”

It is thanks to the generosity and support of our community that we are able to run our services. Each year it costs over £800,000 to provide all our services and 90% of this must be raised through voluntary giving and charitable donations.

If you would like to support Tynedale Hospice at Home, please call our Fundraising Team on 01434 606 444 or email: fundraising@tynedalehospice.com.

Tynedale Hospice at Home is a registered charity. No 1034170.
Nursing Care Services
Supporting people who want to receive Hospice care at home

Being diagnosed with a life-limiting illness or palliative condition can be a daunting experience, and for many people, being cared for in their own home, surrounded by people they know and love, can make a big difference.

Our Nursing Care Services Team is made up of trained Hospice Care Nurses and Hospice Support Workers. They work closely with your local GP, district nurse and other community services to provide the care you need in your own home.

The service is free and available to adults (18 years and over) with life-limiting illnesses or palliative care needs who live in the areas of West Northumberland, Tynedale and Ponteland, 24 hours a day, seven days a week.

We are regulated by the Care Quality Commission (CQC) and achieved a ‘Good’ rating in our last inspection in November 2016.

“The nurses were brilliant. They inspire confidence and trust. I really can’t say enough how important they were in helping us all cope. Without them it would have been impossible.”

Taking care of you

We know how important it is to support people who wish to receive Hospice care in their home and avoid unwanted admissions to hospital in the final stage of their life.

We pride ourselves on a holistic approach. Our Nurses and Hospice Support Workers are specially trained to provide high quality nursing and personal care, whilst being on hand to provide emotional support to both you and your family.

Care can be provided over a period of hours, days or even weeks depending on need and can include personal and nursing care, advice on pain management and symptom control and much needed respite care day and night for families and carers who need to take a break and have some time for themselves. This list is not exhaustive, and care will be tailored to your needs.

You and your wider family are at the heart of what we do and we’ll do everything we can to ensure you are as comfortable as possible at the end of your life.

“A really heartfelt thank you to everyone at the Hospice. Your amazing nurses were there when we needed you the most, it allowed us to spend those last hours together with our Dad without any worry. We don’t know what we would have done without you.”

Referral to our service

You can access our service through any healthcare professional e.g. GP, District Nurse, MacMillan Nurse or Community Matron.

For more information, please contact the Nursing Care Services Team on 01434 604 321.

In addition to our Nursing Care in the Home, Tynedale Hospice at Home also provides Family Support Services for adults, children and young people and a Hospital Transport Service.
